[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Computer Science student and full-stack developer dedicated to building AI-driven solutions for real-world challenges. Committed to transforming technical projects into production-ready software that prioritizes both innovation and digital integrity.

Achievements

- **2nd Place — FugenHack Hackathon** | Built Huristi, a real-time privacy monitor that detects unauthorized camera/mic access and automatically disables hardware drivers during suspicious activity. *March 2026*

Education

ASIET Kalady, Ernakulam

Sept 2023 – May 2027

B.Tech in Computer Science Engineering

Skills

- **Languages:** Python, Java, C, JavaScript, Go
- **Frameworks:** React, Next.js, Flutter, FastAPI
- **Backend/DB:** Node.js, Express.js, MongoDB, SQL
- **Tools:** Git, GitHub, VS Code, Linux

Projects

Huristi — Privacy-Focused Antivirus

[GitHub](#) | March 2026

- Developed a real-time privacy monitor in Python that detects unauthorized camera/mic access and automatically disables hardware drivers during suspicious activity.
- Awarded 2nd place at FugenHack hackathon out of competing teams.

AI Answer Evaluation System

[GitHub](#) | Feb 2026 – April 2026

- Engineered an end-to-end automated grading pipeline (FastAPI, Flutter, Gemini AI) to eliminate manual script evaluation, integrating EasyOCR and OpenCV for handwritten text extraction and semantic similarity scoring.

Wormhole — Context Handover Protocol

[GitHub](#) | April 2026

- Created a protocol to eliminate context switching overhead by generating high-density state manifests for LLM model handover.
- Engineered a state-capture engine that reduced manual re-explanation time by an estimated 90%.

Aegis — Real-time IDS Dashboard

[GitHub](#) | April 2026

- Built a SOC-style dashboard using Next.js and Socket.IO for real-time system telemetry and monitoring.
- Developed a rule-based anomaly engine in Python to trigger alerts for suspicious resource spikes.

Leadership & Experience

Secretary, CSI ASIET | Coordinating technical operations and faculty liaison.

Apr 2026 – Present

Media Team Head, Coders Club | Leading outreach and technical documentation.

Sept 2025 – Present
